Treasury Department,

BUREAU OF THE MINT,

Washington, D. C., November 16th, 1883.

Sir:

I have examined Monthly Statement (Form 232) of Balances of Bullion and Coin belonging to the Bullion Accounts of your Mint at the close of business, on the 31st ultimo and find that the balances therein stated agree with the Statements of the Melter and Refiner (Form 219), the Coiner (Form 220), and the Weigh Clerk (Form 226), and with the Cashier's Daily Statement for the 31st ultimo.

I would state that under the head of "Assets" there is no necessity for your making separate entry

of the coins reserved for assay, but you can include the same in the amount of coin on hand.

The amount entered as Silver Bullion deposited for Subsidiary Coin, and also the amount of Uncurrent Silver Coin for Recoinage on hand, should be purchased by you and transferred to "Silver Bullion Purchased for Fractional Coin", and those two accounts closed.

The sum of \$508.⁸⁴ entered under the head of "Liabilities", on account of "Recoinage Profit and Loss", should be deposited in the Treasury on account of profits on the recoinage of Mexican dollars and mutilated standard dollars transferred by

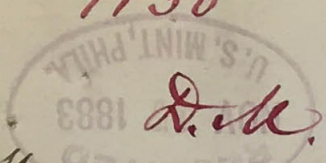

the Treasurer to you for recoinage
into fractional silver coin.

Very respectfully,
Horatio B. Mead

Director.
